

Neven Point Pier – Marine Licence Feedback Form

Thank you for taking the time to attend our drop-in exhibition event for the proposed landing point on Eday (in relation to our Neven Point Wind Farm proposal) or for viewing the exhibition information on our project website at www.greenpowerinternational.com/current-projects/neven-point-wind-farm.

This event forms part of the pre-application consultation process required under the Marine Licensing (Pre-application Consultation) (Scotland) Regulations 2013. It provides an opportunity for the local community and stakeholders to learn more about the project and to offer feedback prior to the submission of a marine licence application to the Scottish Government's Marine Directorate.

Please use this form to provide any feedback you may have on the proposal at this stage and either: hand it in at the exhibition; return it by post in the pre-paid envelope (available at the event) to Neven Point Wind Farm, GreenPower, The e-Centre, Cooperage Way, Alloa, FK10 3LP; or email it to nevenpoint@greenpowerinternational.com. The closing date for feedback is **Wednesday 13th August 2025**. This ensures that all feedback received by this date will be considered in the preparation of the marine licence application and included in the Pre-Application Consultation Report.

Please note that comments provided to GreenPower at this stage are not formal representations to the licensing authority. There will be a further opportunity to submit representations directly to the Marine Directorate once the marine licence application has been submitted and the statutory consultation period has commenced.

This event

1. How did you find out about this consultation? (please tick your answer)

Website ☐

Newspaper advert ☐

Newspaper notice ☐

Other.....

2. Where did you view the exhibition information? (please tick your answer)

Attended exhibition event ☐

Viewed project website ☐

Both ☐

3. Did you find the information presented at this event clear and easy to understand?

Yes ☐

No ☐

Partly ☐

4. Do you have any other comments regarding this event?

Landing point proposal

5. Do you agree with the need for a new landing point to transport wind turbine components to Eday? (Please tick your answer)

Yes ☐

No ☐

Unsure ☐

6. Do you think the proposed landing point is a suitable solution to avoid disruption to the existing ferry service? (Please tick your answer)

Yes ☐

No ☐

Unsure ☐

7. Do you have any specific comments or questions about the location or design of the proposed landing point?

8. Do you have any comments on the need for a Works Licence or the interaction of the proposed works with harbour or foreshore activities?

9. Do you feel the proposed environmental mitigation measures (such as silt curtains and protective membranes) are sufficient to minimise marine environmental impacts?

Yes ☐

No ☐

Unsure ☐

10. Are there any mitigation measures you would like us to consider?

Community and business opportunities

11. If the landing point construction could create additional opportunities at the pier, what specific suggestions do you have?

12. Would you be interested in upskilling opportunities to allow you, or other islanders, to work on the project?

Yes ☐

No ☐

Unsure ☐

Please provide further details below.

13. It is important to GreenPower that we involve local businesses as much as possible with our projects, to maximise community wealth building opportunities and growth potential for businesses on Eday and the wider Orkney Isles.

Are you aware of any local businesses with relevant skills, services or materials that may wish to get involved in construction of the landing point? (e.g. in construction, transport or maintenance)

Should you have further comments, please provide these overleaf or on a separate sheet along with your feedback form.
