

Barachander Wind Farm Proposal Feedback Form

Thank you for taking the time to attend our 2nd public drop-in exhibition event (August 2025) for the Barachander Wind Farm proposal, or for viewing the exhibition information on our project website at <https://greenpowerinternational.com/current-projects/barachander-wind-farm/>

This event is the second of two public consultations that we are holding prior to an application for planning consent being submitted.

Please use this form to provide any feedback that you may have on the proposal at this stage and: hand it in at the exhibition; return it by post in the pre-paid envelope (available at exhibition event) to Barachander Wind Farm, GreenPower, The e-Centre, Cooperage Way, Alloa, FK10 3LP; or, email it to barachander@greenpowerinternational.com. **The closing date for feedback is Monday 15th September 2025** - this ensures that all feedback received by this date is considered at this stage of the pre-application process.

Please note that written comments submitted to GreenPower at this stage are not representations to the determining authority (Scottish Ministers). There will be an opportunity to submit written representations to the Energy Consents Unit, on behalf of Scottish Ministers, once an application has been submitted and a statutory consultation initiated.

This event

1. How did you find out about this consultation? (please tick your answer)

Letter through the door ☐

Newspaper advert ☐

Newspaper notice ☐

Other (please specify).....

2. Where did you view the exhibition information? (please tick your answer)

Attended exhibition event ☐

Viewed project website ☐

Both ☐

3. Do you have any other comments regarding this event?

Barachander Wind Farm proposal

4. In your view, does the proposed layout successfully balance the goal of maximising energy production with addressing environmental and community considerations? (please tick your answer)

Yes ☐

No ☐

Unsure ☐

5. Do you support the proposed use of the WLATHR for transporting major components to the site? (Please tick your answer)

Yes ☐

No ☐

Unsure ☐

6. Would you prefer biodiversity enhancements to be concentrated within the wind farm site (redline boundary) or spread across the wider local area?

7. Do you agree with relocating the access track to the west to avoid identified environmental constraints? (Please tick your answer)

Yes ☐

No ☐

Unsure ☐

8. The turbine layout and heights have been amended, reducing the turbine number from 11 down to 9 while retaining the same output (approx. 65 MW). Overall, do you agree with the changes to the layout and the reduction in turbine numbers?

9. Do you have any additional comments or suggestions about the proposed design and layout?

Community benefit fund & shared ownership

GreenPower will provide £5,000 or equivalent per MW of installed generation capacity to the community every year. Assuming 65 MW is installed, that would be approximately £325,000 per year.

10. Our Report on Feedback (available at this exhibition and online via our project website) outlines popular ideas for community benefit which were raised. Do you have any comments on these ideas or other things that you'd like to see supported?

11. Do you have any views on how you would like to see the funds managed and administered?

12. Do you think the community and/or individuals should be given the opportunity to own a stake in the project, in addition to the proposed community benefit fund? (please tick your answer)

Yes ☐

No ☐

Unsure ☐

Maximising local investment

GreenPower's approach is to work closely with the local supply chain and involve local businesses as much as possible, to maximise local contracts, jobs, employment and community wealth building opportunities.

13. Are you aware of any local businesses with relevant skills, services or materials that may wish to get involved in the project?

14. Are there any other ways that the project could contribute to the community or businesses in the local area during construction?

--

Should you have further comments, please provide these on a separate sheet along with your feedback form.
